People. Passion. Performance.

Over 110 years of experience

Since 1901 the Chicago Pneumatic (CP) name has represented reliability and attention to customer needs, with construction, maintenance and production tools and compressors designed for specific industrial applications. Today, CP has a global reach, with local distributors around the world.

To learn more about our extensive range of tools, construction equipment, industrial and portable compressors, accessories and workshop equipment, please visit www.cp.com.

Titan is now part of Chicago Pneumatic

Since 2001, Titan products are in use every day in a wide variety of industries including oil & gas, mining and construction, power plants, shipyards, steel mills, locomotives, off-road equipment and cranes, and all types of industrial service companies supporting these market sectors. Titan hydraulic tools continually satisfy the demands of the industry during construction, production, breakdown, and routine shutdown repair and maintenance.

TRI-HOLD® Backup Wrenches

One tool fits multiple bolt sizes

VERSATILE

- Unique patented design
- One tool fits multiple sizes
- Works on imperial and metric nuts
- Fully adjustable

SAFER OPERATION

- Adjustable screw for hands-free operation

CORROSION RESISTANCE

- Electroless nickel plating

DURABLE DESIGN

- No moving parts so they can not break down

With Titan TRI-HOLD backup wrenches, you can forget all your other backup wrenches. One tool fits multiple nut sizes, so you no longer need a backup wrench for each nut size. Furthermore, the Titan backup wrench patented design is stronger and more versatile than any other backup wrench on the market, it has no moving parts for higher durability and ease of use.

The load is retained by the three flats of the triangle on the wrench. These flats are much stronger than the flats of a regular hexagonal key. The third flat of the triangle is retained by an adjustable screw which secures the nut for safer hands-free operation.

Loosening the screw allows quick removal, eliminating the need to hit the wrench and change the bolt load. The thicknesses of the walls are unchanged so the TRI-HOLD will fit in the toughest and hardest to reach places. One tool handles a multitude of hex sizes, saving you time and money.

Model	Part Number	Bolt Size Range	
		in	mm
TTH-1	615 812 2500	1 to 5/8	26 to 41
TTH-2	615 812 2510	1 3/8 to 2 1/16	35 to 55
TTH-3	615 812 2520	1 3/4 to 2 11/16	44 to 69
TTH-4	615 812 2530	2 1/16 to 3 3/8	54 to 86
TTH-5	615 812 2540	2 11/16 to 4 3/16	68 to 107
